

Chest Agreements 2023

Software
Online Resources

Licences for Universities,
Colleges and the Research
Sector in the UK and Ireland

Introduction

Welcome to the 2023 Chest Agreements Catalogue

Chest Agreements are contracts with suppliers of commercially available software and online resources. They guarantee licence pricing and terms and conditions. Education and research communities in the UK and Ireland can take part.

Chest Agreements saved more than £100 million in licence fees and efficiency savings in 2021/22*.

There are over 60 Chest Agreements from 37 vendors.

Software Agreements cover products widely used in teaching and research, as well as administrative functions, and can be used to benefit the entire institution. They include:

- software from Microsoft and Adobe
- software in specialist areas such as GIS, statistics and maths, qualitative data analysis, mind mapping and more
- tools for software asset management and security
- software for administration of the institution

Online Resource Agreements include all types of digital resources: from eJournals, eBooks, backfiles, databases, reference materials, standards, to videos... and more.

In the last year we have introduced the following new Agreements:

- **APA OA Publishing Pilot** which offers open access publishing in 88 hybrid journals in the PsycArticles portfolio under a consortium cap.
- **Codemantra**: accessibilityInsight™ from codemantra is an AI-driven Intelligent Document Processing (IDP) platform which assesses and remediates documents to global accessibility standards.
- **Serif Affinity** offers professional photo editing, page layout, graphic design and illustration software – Affinity Photo, Affinity Publisher and Affinity Designer available for Windows and Mac.
- **STACKED** is a fully managed automatic assessment system for mathematics and STEM disciplines. It enables students to answer questions (quizzes) with a mathematical expression.
- **Tanium** defends every team, endpoint and workflow against the largest attack surface in history by delivering the industry's first convergence of IT management and security operations with a single platform under a new category, Converged Endpoint Management (XEM).

Working for you, with you

The continuing success of Chest relies on the support of our customers. They take the time to:

- provide constructive feedback on Agreement proposals
- suggest new resources to investigate
- attend meetings
- complete surveys, and
- much more...

So, a huge thank you to you all.

We look forward to working with and for you throughout 2023.

2022 Annual Savings*

We estimate annual savings for the 2021/22 academic year at over £100 million.

*This year we have changed the way we calculate savings, bringing us into line with the approach used by Jisc Licensing. As well as comparing the prices available under the Chest Agreements with the prices otherwise payable outside of them (by obtaining the prices from the suppliers and other sources), we also apply the sector-approved BT3 Methodology to each Agreement. Because of this changed methodology, we have not provided figures from previous years for comparison. Savings through Agreements more than doubled between 2013 and 2022; this year's savings continue that trend.

Getting in touch

Questions?

Please contact Chest Help:

Tel: **0300 121 0878**

(calls to 0300 numbers are charged at local rate)

Email: help@chest.ac.uk

Staying in touch

To join our mailing list for the latest news, event information and resources simply provide your email address in the form at the foot of the [Chest website](#).

Request a Catalogue

Like last year, due to the high proportion of people working from home and lack of physical events, we have taken the decision not to print the Chest Catalogue.

Agreement renewals completed:

- ESDU Validated Engineering Data
- MarketLine and GlobalData Explorer
- PressReader
- QSR (Citavi, NVivo, NVivo Collaboration Cloud, NVivo Transcription)
- SciFinder

Coming soon – negotiations for these Agreements have either already started or will be starting imminently:

- Adobe ETLA
- Adobe Master CLP
- AMS (Journals, MathSciNet, Memoirs)
- APA (Books E-Collections, Handbooks in Psychology, OA Publishing Pilot, PsycArticles, PsycBooks, PsycExtra, PsycInfo, PsycTests, PsycTherapy)
- COBRA
- Compendex and EI Backfiles
- Emerald (eBooks Select, eCase Collection, Emerging Market Case Studies, Expert Briefings, Subject Collections FE, Subject Collections HE)
- Esri
- Examity
- Flexera
- Maplesoft and Maple Learn for FE & Schools
- Microsoft EES Education Qualified User
- Microsoft Select Plus
- MindGenius
- Noteable and STACKED
- OxMetrics
- Practice Labs
- SAS

Key to the Agreements

Agreement categories

Access – Accessibility

ArtsHum – Arts and Humanities

Bus – Business, Economics, Management and Law

Creative – Creative, Graphics, Media

GIS – Geographical Information Systems, Geospatial Data and Maps

MedPsyc – Medicine, Health and Psychology

MedSci – Medical Sciences

Research – Research and Analytic Tools and Reference Works

SocSci – Social Sciences

STEM – Science, Technology, Engineering, Maths (including statistics and analysis)

SysServ – Systems and Services

Licence terms

Subscription – multi-year subscriptions, usually paid annually, provide the right to use the products that you license during the licence period. Software assurance/maintenance/product updates are usually included at no extra charge. Typically, you may not use the resources once your subscription expires unless the licence is renewed.

Perpetual – you buy the resources outright and have perpetual use rights once the supported licence period ends. Most providers offer optional maintenance programmes to ensure that your resources are kept up to date or that you can continue to access the latest versions.

Pilot – an experimental and/or one-off licence agreement that may or may not be introduced more widely upon completion or become a part of a wider licence offering.

Maintenance – maintenance, or software assurance, or ongoing access fees are available under the Chest Agreement.

Home use – this term is used usually for software that can be deployed on staff and/or students' personal computers. Check the website for specific details.

Alumni – remote access to resources for alumni is offered though other restrictions or additional charges may apply. Check the website for details.

FOC – free of charge.

More about Chest Agreements

What are Chest Agreements?

A Chest Agreement is a contract that guarantees licence pricing and terms and conditions for valuable software and online resources, negotiated on behalf of the education and research communities in the UK and Ireland.

In 2021/22 Chest Agreements saved the academic community in excess of £100 million in licence fees and in efficiency savings (see Page 2 for more information on how this figure was calculated).

Features of a typical Chest Agreement

Preferential terms and conditions	Guaranteed pricing	Licence
Standard licence	Transparent, fixed, banded	Between the institution and the vendor or service provider
Based on UK Law	Usually over three-year term	Site licences cover use by all staff and students
Consistent and easy to understand language	Opt-out options or one-year licences are common	Administration and management use often included

Other benefits:

- The guaranteed pricing simplifies budgeting.
- Pricing is often banded or tiered according to numbers of students or staff.
- Many agreements offer flexible licensing options to meet different requirements and budgets.
- Support is included in the price.
- All users have access to the latest version or the most up to date content.

Software

Adobe Creative Software

Adobe tools empower students to think creatively, communicate expressively, and gain invaluable skills that will help set them apart in the job market. The Adobe Chest Agreements provide a range of cost-effective ways for universities and colleges to bring the technology and creativity to the classroom and provide teachers with what they need to teach digital media skills.

Adobe ETLA

Subscriptions and maintenance for Adobe's Creative Cloud Desktop Apps

For use on institution owned classroom/lab machines, staff devices (both institutional and personal) and/or student home use licences.

This Agreement's renewal is currently being negotiated. Please see the Chest website for the latest update.

www.chest.ac.uk/agreements/adobe-etla-2022

Creative Subscription Maintenance Home use

Adobe Linked VIP

Flexible volume subscription licensing for the latest versions of Creative Cloud

The Value Incentive Plan (VIP) offers a lower cost way to deploy the right tools to the right people. Licences can be:

- used for administrative purposes
- bought on an ad-hoc basis
- purchased for departments or for Student Labs

Chest consolidates purchases to achieve the highest level of discount available for all participants (there are normally four levels of discount based on the number of licences purchased). The individual institutions maintain control of deployment and management of their licences under their own Value Incentive Plans.

The annual fee to join the scheme is £0.

www.chest.ac.uk/agreements/adobe-vip

Creative Subscription Home use

Adobe Master CLP

Perpetual Licences for Adobe's most popular desktop products

The Cumulative Licensing Program (CLP) is a two-year membership licensing programme in which universities and colleges can purchase perpetual software licences and optional upgrade plans for some of Adobe's most popular desktop products. These include Acrobat Pro, Captivate, ColdFusion and Director. It doesn't matter how small your organisation or your order – through the Chest scheme everyone gets the highest level of discount from the start.

The annual fee to join is £0.

Negotiations for renewal of this Agreement for two more years on the same terms are underway.

www.chest.ac.uk/agreements/adobe-clp-2021

Creative Perpetual Home use

Savings

Institutions in the UK and Ireland will have saved over £110 million during the previous three years of our Adobe ETLA Agreement. The Agreement also gives many sites access to a site licence that they would normally be too small to obtain.

Adobe Focus Group

All participants in the Adobe Agreements are welcome to attend meetings. There are usually two per year. See the Software Messenger and www.chest.ac.uk/events for details. For news join the mailing list: email chest-adobe@jiscmail.ac.uk including 'SUBSCRIBE firstname surname' within the body of your message.

NEW

codemantra

Tools to identify and correct accessibility issues within documents

accessibilityInsight™, from codemantra, is an AI-driven Intelligent Document Processing (IDP) platform which assesses and remediates documents to global accessibility standards.

It automates digital document accessibility compliance, extracts, classifies and captures document insights, and transforms any document into any desired digital format.

The codemantra Chest Agreement offers discounted pricing for codemantra's 'accessibilityCheck' and 'accessibilityFix' automated solutions, plus 'accessibilityReview' which allows organisations to review, QA and perform interactive remediation as needed.

www.chest.ac.uk/agreements/codemantra

RENEWED TO 2025

IHS Markit

ESDU

The knowledge and experience of hundreds of engineers for your students

ESDU provides validated engineering design methods, empirical and theoretical data, worked examples and software tools that address a wide range of engineering disciplines. Much of the information is often only available through ESDU.

Many universities use ESDU in their curriculum to equip students with the necessary tools and knowledge used in industry by:

- including data into lecture notes, handouts, and visual aids
- setting coursework assignments that use ESDU data and/or software
- setting project work that uses the industrial methods

www.chest.ac.uk/agreements/esdu

STEM Subscription Home use

Esri

Equip your students with GIS data visualisation and spatial analysis skills

Esri's ArcGIS desktop, web and mobile apps are used by staff and students for teaching, research, estate management and reducing operational costs.

ArcGIS is a fully integrated suite of software for mapping, analysing, and sharing data.

This Agreement offers unlimited licences for institutions, allowing deployment way beyond the traditional uses.

Once equipped with data visualisation and spatial analysis skills, your students will qualify for occupations in countless fields.

This Agreement's renewal is currently being negotiated.

www.chest.ac.uk/agreements/esri

GIS Subscription Home use

Esri UK Annual Conference 2023

Tuesday 16 May

Queen Elizabeth II Conference Centre, London

Discover the Power of Location

Attend the largest GIS event in the UK, comprising both a customer-led conference and exhibition zones, with the opportunity for you to meet with industry experts and peers.

If you are not able to travel, Esri UK is also offering a livestreaming option, enabling you to watch presentations from the opening plenary, the main stage, and the closing sessions online.

Esri UK Steering Group

This group consists of representatives from Esri UK, Chest, institutions with knowledge of licensing, and users of ArcGIS software in the academic community. It typically holds a couple of meetings a year (virtual / in person). If you would like to participate, please contact: help@chest.ac.uk

Examity

A leading solution for online invigilation, offering a secure high-quality experience for those sitting exams remotely

Offering a choice of Live Proctoring and Auto Proctoring depending on your institution's needs and priorities, the Examity Chest Agreement is the only place where institutions can pre-purchase exam hours.

Pricing is dependent on the number of exams you wish to purchase but also the length of exams you are intending to run. Purchases are valid for two years from point of purchase for additional peace of mind.

This Agreement's renewal is currently being negotiated.

www.chest.ac.uk/agreements/examity

Suitable for all subject areas

Flexera

Flexera's software asset management solution helps optimise licence consumption and reduce software costs

The Flexera Chest Agreement offers a package comprised of FlexNet Manager for Clients, FlexNet Manager for Datacentres, and Flexera SaaS Manager. Find more details on the webpages.

Pricing is based on institutional FTE numbers, making it a practical solution for any institution regardless of size.

This Agreement is up for renewal in 2023.

www.chest.ac.uk/agreements/flexera

SysServ Subscription

Hexagon Geospatial

Geospatial image processing, photogrammetry, GIS and server technologies

Essentials Bundle – a base version of the world-leading ERDAS IMAGINE and GeoMedia products, this single bundle spans both raster and vector processing.

Desktop Imaging & GIS Bundle – a complete image processing suite including ERDAS IMAGINE and ER Mapper, from ingestion and correction through to enhancement, classification, feature extraction and change detection; and GeoMedia, a complete GIS product encompassing all the functionality you would expect, from import and vector creation to editing, analysis, transaction management, linear networking parcel management, validation, and finally product preparation, creation, and printing.

Enterprise Bundle – offers licences of ERDAS APOLLO Professional, GeoMedia WebMap Professional, GeoMedia Smart Client Professional, Geospatial Portal and Geospatial SDI, designed to be installed and used as an enterprise solution.

M.App Enterprise – a privately hosted cloud platform for creating geospatial apps across multiple platforms including browser, desktop and mobile. The powerful geoprocessing engine offers hundreds of operators and analytical routines taken from ERDAS IMAGINE and GeoMedia, giving the optimal advanced raster and vector solution.

www.chest.ac.uk/agreements/hexagon

GIS Subscription Home use

Discover Hexagon Geospatial U

Hexagon Geospatial U is an online community for all Hexagon Geospatial university educators, containing thousands of pages of curriculum including presentations for lectures and lecture notes, example data, and step-by-step tutorials for students to follow for lab exercises. The curriculum materials are available to download and use as is or as a template with local datasets.

License Dashboard

Innovative and adaptive solutions that track and manage software assets

License Dashboard helps institutions establish, understand, optimise and manage their software licences, leading to potential savings of up to 30% in overall IT spend.

The License Dashboard Chest Agreement offers "SAM Agile 3" which is comprised of the License Manager platform and portal, Connectors, Implementation, 3 Vendors onboarded, Quarterly Core Services, Account Management and End User Support.

License Manager is a powerful yet easy-to-use platform which allows organisations to accurately manage software licences.

The License Dashboard Chest Agreement offers three-year licences for the above products, with tiered pricing based on staff FTE count to make it as accessible as possible. Institutions purchase the SAM Agile package but can then add options as required.

www.chest.ac.uk/agreements/license-dashboard

Subscription

Maplesoft

High-performance software tools for engineering, science, and mathematics

Maple helps make maths easier to learn, understand, and use. It combines the world's most powerful maths engine with an interface that makes it easy to analyse, explore, visualise, and solve mathematical problems.

Maple Flow is a whiteboard-style environment that allows engineers to easily brainstorm, develop, and document their design calculations.

Maple Learn is an online tool for teaching and learning mathematics that puts all the visualisation, solving tools, and interactivity you want at your fingertips.

MapleSim is an advanced modelling tool for complex engineering design projects.

Overseas Campus Options for Maple, Maple Flow, and MapleSim expand the individual product licences to cover on-site use at your overseas campuses.

Student and Staff Distribution / Virtualisation Extension Options for Maple & MapleSim, and Maple Flow – Distribution allows users to install Maplesoft software on their personally-owned computers, Virtualisation allows users to access Maplesoft software remotely from any computer using an internet connection.

This Agreement's renewal is currently being negotiated.

www.chest.ac.uk/agreements/maplesoft

Maple Learn for FE & Schools

Maplesoft's online tool for teaching and learning mathematics that puts all the visualisation, solving tools, and interactivity you want at your fingertips

With over 30 years of experience of working with educators to bring software to the mathematics classroom, Maplesoft has developed Maple Learn, an online teaching and learning environment that supports and enriches how you teach, making it easy to bring the benefits of technology to your students.

With Maple Learn you can:

- provide illuminating graphs, computations, explanations, and interactive explorations in a single online document
- focus students' attention on the most important steps
- provide more engaging examples
- parameterise expressions at the click of a button
- easily create and share documents and applications with your class
- use one tool to teach all your subjects

A three-year licence covers access from both institutional and personal devices (there is also an annual opt out without penalty clause).

This Agreement's renewal is currently being negotiated.

Microsoft Education Solutions

Easy, cost-effective licensing and software assurance on-premises, in cloud and hybrid IT environments such as Office, SharePoint, SQL Server and Exchange, operating systems such as Windows Server and Windows Desktop Upgrades. These programmes provide an EU compliant procurement route through a choice of resellers that are on the National Framework Agreement for Software Resellers.

Microsoft EES Education Qualified User

Affordable volume-based licensing for enterprise desktop products for Higher and Further Education establishments and schools

The Chest Microsoft EES EQU Agreement provides the following benefits over a standard Microsoft EES EQU Agreement:

- minimum staff EQU requirement reduced from 1,000 EQU to 100 EQU
- English law rather than Irish
- Level B pricing for all sites, which is normally only available to institutions with more than 3,000 EQU (around a 7% saving on core products)

Additionally, sites committing for three years with Microsoft can access the following benefits:

- additional discount for M365 A3 in year one only of your agreement, normally only available to sites with more than 10,000 EQU
- transitional relief for sites moving from an FTE EES to an EQU EES
- for sites that chose 100% M365 A5 in year one of your enrolment, additional discounts will apply in all three years of your agreement

For institutions that enrol with Microsoft for one year only and choose 100% M365 A5 coverage, there will be an additional discount over and above normal Level B pricing.

Negotiations for renewal of this Agreement are currently underway, for a January 2024 start.

Microsoft Select Plus

Perpetual purchases of desktop and server products

For academic customers who purchase software licences in quantity and manage software across multiple devices, this Agreement offers a cost-effective and efficient way to buy.

By enrolling in this scheme universities and colleges can purchase perpetual licences for Microsoft desktop products, in addition to server software such as SQL Server, SharePoint, Exchange and Windows Server.

Other benefits include:

- free to join for members of Chest Microsoft EES EQU Agreement
- ability to buy single licences – there's no need to commit to buy in volume
- availability of software assurance

Negotiations for renewal of this Agreement are currently underway, for a January 2024 start.

[www.chest.ac.uk/agreements/microsoft-select-plus](#)

Perpetual

Maintenance

Microsoft Special Interest Group

All participants in the Chest Microsoft Agreements are welcome to attend meetings of this group. We normally hold one or two meetings per year. Check the Events section on the Chest website for details.

www.chest.ac.uk/events

Microsoft EES Savings

The unique Chest Microsoft EES EQU Agreement saves UK universities and colleges in excess of £2.4 million per year.

MindGenius

Bring MindGenius cognitive power tools to your campus

MindGenius mind mapping can stimulate creativity, improve communication skills, and increase productivity for your students and faculty.

With a variety of built-in tools, MindGenius helps people create, organise, and prioritise as they work with ideas and information – for writing projects, class notes, lesson plans, class presentations, project management, and much more.

The Campus-Wide programme provides MindGenius for Windows and cloud-based MindGenius Online – for both PC and Mac users.

This Agreement is up for renewal in 2023.

www.chest.ac.uk/agreements/mindgenius

Access **Research** **Subscription** **Home use**

NAG

Enhancing learning and enabling cutting-edge research in maths and high-performance computing

NAG resources are used to solve complex mathematical problems in a diverse range of mathematical areas such as financial analysis, business analytics, science, engineering and research.

The NAG Library is a collection of high quality, robust, documented, tested and maintained mathematical and statistical algorithms. It is available for use with a variety of programming languages, platforms and operating systems.

NAG also produces the NAG Fortran Compiler which offers improved code portability and detailed error reporting.

www.chest.ac.uk/agreements/nag

STEM **Bus** **Subscription** **Home use**

NAG collaborates with Universities in a number of ways: working with staff to maximise NAG software benefits through onsite training; sponsoring PhD and MSc students; providing a suitable awards programme; and arranging student placements or internships.

Noteable

Hosted platform for programming, visualisation and exploratory data analysis

Noteable supports multiple programming languages including Python and R (Studio) toolsets. The platform also provides integration hooks for all popular Virtual Learning Environments (VLEs) and has its own inbuilt grading and assessment and multi-author collaboration and sharing tools.

Noteable provides access to 'computational notebooks', which academics and students can use to combine software code, computational output, explanatory text and multimedia resources in a single pedagogically rich environment. It includes by default Python 3, R (Studio) and specialist environments such as Language and Machine Learning, Chemistry, and GeoScience flavours.

Noteable adopts a 'batteries included' philosophy and comes with a large number of software libraries and extensions pre-installed for users' convenience geared towards maximising efficient teaching and assessment workflows.

Both Per User and Site Licence options are available, either for a one or three-year licence term.

This Agreement is up for renewal in 2023.

www.chest.ac.uk/agreements/noteable

STEM **Subscription** **Home use**

OpenText

Fast, reliable access to a variety of enterprise applications

OpenText products provide access to a variety of enterprise applications, including host systems such as UNIX and Linux, Microsoft Windows, mainframes, network file systems and more.

The OpenText Chest Agreement offers **OpenText Exceed** (connecting Windows desktops to graphical applications running X Window hosts), **OpenText NFS Solo and Server** (allowing access to NFS resources from Microsoft Windows PCs) and several other popular OpenText products including **OpenText Exceed 3D**, **OpenText Host Explorer**, **OpenText Secure Shell**, and **OpenText Business Intelligence**. See the Agreement webpages for more information.

The Agreement offers the choice of three or five-year licences at a discount of c.95% versus commercial rates. It also allows sites to 'pick and mix' products meaning you only need to license what you want.

www.chest.ac.uk/agreements/opentext

SysServ **Subscription**

OxMetrics

OxMetrics is a family of software packages created by academics for academics, providing an integrated solution for the econometric analysis of time series, forecasting, financial econometric modelling and statistical analysis of cross-section and panel data

The OxMetrics Chest Agreement offers a three-year licence with simple fixed pricing. It allows unlimited access to all modules for the entire institution. The modules included are: OxMetrics Enterprise Edition 9; CATS 3 (Cointegration of Time Series Analysis); Ox Professional 9; PcGive Professional 15; G@RCH 9.0; STAMP 8.3; SsfPack 3.

This Agreement is up for renewal in early 2024.

www.chest.ac.uk/agreements/oxmetrics

Practice Labs

Powering-up digital skills for your staff and students

What if your students, your staff and your IT team could all develop their hands-on digital skills in a safe, live environment – without any risk to your critical business systems? Now they can.

The Practice Labs Private Cloud hosts hundreds of pre-configured virtual machines containing live-lab environments – from entry level guided labs covering fundamental computer skills and cyber awareness through to technical labs and freestyle sandboxes for your IT staff to utilise for testing and experimentation.

The Agreement offers a choice of Single Lab or an Unlimited Library, and named or concurrent user models, with bespoke/custom Lab or Sandbox development also available.

Pricing is for a one or three-year term, with an additional discount available to Institutes of Technology who place multiple orders above a certain threshold.

This Agreement is up for renewal in early 2024.

www.chest.ac.uk/agreements/practice-labs

SysServ

ProWritingAid

ProWritingAid

Secure world-class grammar and style checking

ProWritingAid offers world-class grammar and style checking combined with more in-depth reports looking at elements of structure and style to help you strengthen your writing. The unique combination of suggestions, articles, videos, and quizzes makes writing fun and interactive.

This competitor to Grammarly is now available through Chest, allowing institutions to purchase as many unlimited one or three-year licences as they would like at discounted prices. Institutions can also choose between 'Academic' and 'Academic Plus' licences, the latter adding in a plagiarism checker.

Secure data handling and no data storage means ProWritingAid is the preferred choice of many academic and corporate organisations.

Learn more on the Agreement's webpages; we'll be running a number of events over the year to support this Agreement.

Suitable for all subject areas

RENEWED TO 2027

QSR

QSR International is a qualitative research software developer with global reach. Their qualitative and mixed-methods data analysis software tools are much-used by academics and professional researchers, helping them to make sense of data – text, videos, social media and more.

During the course of 2023 QSR will be rebranded 'Lumivero'.

Citavi

Citavi is the only reference management program for teams that gives you the option of storing your information on your own server instead of in the cloud

This all-in-one referencing and notetaking solution, designed for individuals and teams, allows you to search resources from around the world, create tasks, analyse texts, save quotations and ideas, create outlines for drafts, and write reports, articles, or books.

In 2021 QSR acquired the EndNote competitor Citavi, and this is now available to order through Chest either as part of a bundle with NVivo or as a standalone product.

Like NVivo, pricing is banded, with three and five-year unlimited site licences available. Trials are available and encouraged.

www.chest.ac.uk/agreements/citavi

Research Subscription Home use

NVivo

#1 software chosen by academics for qualitative research

NVivo is software that supports qualitative and mixed methods research. It lets users collect, organise and analyse content from text, images, video, audio, emails, spreadsheets, online surveys, web and social media data in virtually any language. It is ideal for complex research projects, whether working solo or in a team.

The NVivo Chest Agreement offers huge discounts and unlimited licences.

A new version of NVivo, V14, will be released in 2023.

www.chest.ac.uk/agreements/nvivo

Research Subscription Home use

NVivo Collaboration

Licences for NVivo Collaboration Cloud and Server

The NVivo Collaboration Agreement offers licences for both Collaboration Cloud and Collaboration Server, enabling teams to work together on NVivo projects.

As research teams expand in size and geography, so does the importance of collaboration with colleagues. Share data, expertise, and insights with NVivo's collaboration solutions.

Collaboration Cloud allows teams to bring together the right people to deliver the best research outcomes in one central project. The Agreement allows institutions to purchase annual licences for the number of users they require, with those licences being effectively unlimited. The discounted academic pricing also offers tiers dependant on the number of users.

Collaboration Server (formerly NVivo for Teams) is a separate application installed on a server at your institution. It allows multiple users in the network, on their local NVivo installations (Windows only), to work on the same project at the same time. Users see other users' changes in real time. Server is licensed by number of users and in parallel with an institution's NVivo licence.

.../agreements/nvivo-collaboration

Research Subscription Home use

NVivo Transcription

Automated transcription assistant integrated into NVivo

The NVivo Transcription Agreement now offers per hour banded pricing.

With NVivo Transcription researchers simply upload their audio file and let the software do the rest, saving time and money versus manual processes. With good quality audio, they can expect up to 90% accuracy and a file transcribed in a timespan of half the length of the audio. They can then make amendments, notes and tag speakers using the specialised editor and directly import transcribed files into NVivo.

NVivo Transcription works both with and without NVivo; more and more institutions are looking at it as a standalone transcription tool.

www.chest.ac.uk/agreements/nvivo-transcription

SAS

Prepare your students and researchers to meet the increased demand for advanced analytics skills

SAS Analytics skills are highly sought after in today's employment market.

The Education Analytical Suite for teaching and academic research integrates several commonly used SAS Analytics foundation software products in a bundle. There are options to add individual products from SAS's Advanced Analytics and Business Intelligence Technologies Groups.

The flexible licensing options are designed to meet the distinct needs of departments, schools/faculties or an entire campus.

Users get free access to SAS's award-winning e-learning courses as part of their licence.

The Agreement also offers licences for SAS Viya, SAS's new cloud-enabled analytics engine.

This Agreement's renewal is currently being negotiated.

With free access to the **SAS Joint Certificates Programme** included with their SAS licence universities can prepare their staff to support students who intend to research or work in a data-rich business environment and help bridge the analytic skills gap.

Snow

Drive down software costs and ensure licence compliance

Snow License Manager gives a unified view of hardware and software assets and usage metrics.

The Snow Chest Agreement offers a unique academic unlimited site licence with banded pricing for five key components:

- EUC & DC Adoption Tracker
- EUC & DC Technology Spend Optimization
- Snow Productivity Optimizer
- Snow ITSM Enhancer
- SaaS Technology Spend Optimization Bundle

It also offers a range of supporting services to provide a comprehensive and cost-effective SAM solution tailored specifically for universities, colleges and more.

STACKED

STACKED

STACKED is a fully managed automatic assessment system for mathematics and STEM disciplines

It enables students to answer questions (quizzes) with a mathematical expression.

STACKED's unique features make it a flexible tool for supporting a wide range of learner capabilities and deployment scenarios e.g.

- questions can be **randomised**
- accepts many kinds of **inputs** e.g. where the student enters a mathematical expression, or makes a true/false selection
- **plots** can be dynamically generated
- students can work line by line **reasoning by equivalence** until they have a final answer in the correct form
- STACKED supports working with **significant figures** and **scientific units**

STACKED is provided by EDINA, University of Edinburgh, as a fully hosted platform encompassing both the underpinning STACK software and a dedicated VLE for authoring and executing quiz assessments.

Available as a Site Licence for both HE and FE, allowing up to 50 courses at up to 1,000 users per course.

This Agreement is up for renewal in 2023.

Tanium

Converged Endpoint Management solution to defend the largest attack surface

Tanium defends every team, endpoint and workflow against the largest attack surface in history by delivering the industry's first convergence of IT management and security operations with a single platform under a new category, Converged Endpoint Management (XEM).

Find out more about the products offered through Chest on the Agreement webpages; the Useful Resources tab is frequently updated and contains a range of recorded webinars and other videos. If you'd like to find out more or be put in touch with Tanium, please [contact Chest](#).

The Tanium Chest Agreement offers institutions a unique academic unlimited site licence for a simplified product bundle, with a choice of on premises or cloud licences. The pricing model is based on Jisc Banding, with two and three-year licences available plus the opportunity to pay annually or upfront.

SysServ **Subscription**

Verbit

A leading provider of transcription and captioning services, offering an interactive solution of technology and a human touch

They provide seamless integration and real-time service at competitive pricing that doesn't compromise on accuracy or speed. They make captions not just an accommodation feature, but a learning feature to benefit all students.

Verbit partners with institutions to help promote access and engagement – from the classroom to commencement. Verbit's technology is purpose-built, so its post-production and live integrations allow you to automatically caption sessions with accuracy to meet compliance requirements seamlessly and engage more effectively with others.

The Verbit Chest Agreement covers Captioning, Transcription, Live Captioning and Audio Description services. Transcription and Captioning both offer a choice of 24/48/72 hour turnaround on transcription and captioning, with Human Layers plus Automatic Speech Recognition software. Institutions purchase credit to a certain value and then call off services as required.

Find out more about Chest

For more background information, visit the FAQ page www.chest.ac.uk/frequently-asked-questions. You will find a wide range of information such as how we choose products for Chest Agreements, things that you need to know if you participate in an Agreement, the role of licence contacts, legal stuff such as the Chest Standard licences, what being a Chest Site Rep means, a section on jargon busting, and what you need to consider if you want to provide access to your partners.

How to order

All publicly funded Universities and Colleges of Further Education in the UK are eligible to subscribe to Chest Agreements. Other organisations, for example, universities and third-level colleges in Ireland, private universities, colleges, other training bodies, and not-for-profit organisations, can benefit, though this is usually at the discretion of the supplier.

Contact help@chest.ac.uk if you would like to know if your organisation is eligible.

The first step to ordering is to register on the Chest website.

Why register?

- Once logged in you will be able to order online.
- Some content is only accessible once you are logged in.
- You won't need to enter your details next time.
- You can view details of the resources that your organisation is licensed for (if you are assigned Super User privileges for your organisation).
- You can administer your own account details and preferences.
- You can view suggestions that other people have made for new Chest Agreements, vote for them and suggest other products.

Who can register?

Members of staff at institutions and other organisations that are eligible to participate in Chest Agreements; people who hold an appropriate position at their organisation and are responsible for making decisions about purchasing online resources and software for use by their students and staff.

To find out more about registering see www.chest.ac.uk/registering-on-the-chest-website.

Ordering

The order process is outlined at www.chest.ac.uk/how-to-order. The precise steps vary depending on the Agreement.

The most efficient way is to order online. Alternatively, download a partially completed order form and fill in the rest of the details offline, or download a blank pdf order form, complete all the details offline, and return your form as an email attachment to Chest Help: help@chest.ac.uk.

Collaboration

The success of Chest Agreements relies on collaboration between the academic community, suppliers, and the Chest Team. Chest runs free-to-attend meetings, often in partnership with suppliers, and collaborates with groups that represent the academic community such as the Academic Applications Forum and the UCISA Software Procurement Group.

You can find details of events here www.chest.ac.uk/events.

Being a Chest Representative

Each university, college, and other organisation that is eligible to license resources through Chest must nominate at least one Chest Rep (aka Site Contact). This is an important but not especially onerous role. These people are the first point of contact for Chest.

There are two types of Rep – software and library specialists:

Software Contact

A Software Contact usually has a senior role in IT Services. This person needs a good understanding of software licensing and knowledge of the software licensed by their institution.

Online Resource (Data) Contact

This Online Resources Contact is typically a senior librarian, an authority on online resources and the requirements of their organisation. They should have a good understanding of licensing.

More than one person can be nominated for each role; this is quite usual to ensure cover for holidays and other eventualities.

What is their role?

Site Reps are usually responsible for making decisions to purchase Chest licences, and placing orders.

They receive the Chest Messenger newsletters and other information relating to Chest Agreements and events. It is their responsibility to circulate relevant news to their colleagues.

An important aspect of the role is to advise Chest about their institution's licence needs and if there are any licensing issues that are challenging their organisation; if we know about these things then we will do what we can to help.

Another is to review proposals for new and renewing Chest Agreements and send us any feedback.

On the Chest website

As Chest Site Rep, once registered (with Super User privileges), you will:

- have access to restricted content – this is commercially sensitive and should not be shared with third parties
- be able to order online
- view the status of any orders
- view licence details of orders raised by yourself or colleagues
- print details of your licences
- approve other members of your organisation when they register on the Chest website – this will allow them to view restricted content and place orders

You can:

- edit your personal contact information and preferences
- change your password
- manage users at your organisation
- add users to attach to licences when you order
- remove users if they leave or change jobs
- upgrade another user to Chest Rep so that your organisation has more cover or if you need to resign as Chest Rep

It's easy to update contact information and preferences and help Chest to keep your records up to date.

We advise that you read the Chest Privacy Notice at www.chest.ac.uk/privacy-notice to learn how we respect your personal information.

In addition, please read the Chest Data Processing Agreement at www.chest.ac.uk/chest-data-processing-agreement which applies to universities, colleges and other organisations which are eligible to participate in Chest Agreements. This is required to ensure compliance with GDPR Regulations.
